Anti-Cellulite and Body Forming Procedure - "Cosmetic and Medical" procedure

My practice shows, and to my surprise, cellulite is willing to deal primarily with women and girls who ...

Have first signs of cellulite initiation or have cellulite at the first degree. A woman with a higher degree of cellulite appears absolutely exceptional. And you should have an increased interest in reducing your cellulite. For a husband, friend, lover ... but mainly for themselves.

Nature can not be deceived. If we want to reduce or eliminate cellulite, we have to do a lot of work every day for ourselves. It's a **WHOLE FILE** measure ...

I have significantly changed the procedure when you come to my cellulite massage. I'm really talking about the **PROCESS** against cellulitis. In order to have my procedure against the cellulite effect, it precedes her (**the whole procedure is then practically at least for 2.5 hours in a piece**) partial Lymphatic Massage. In parallel with it, I apply the blood circulation procedure in the incriminated parts. This is how I prepare you for a subsequent **massage against cellulite**. In the final you will finally get the appearance of the game that will please you. **Obviously after the first procedure, the suitability or the necessity to repeat this procedure in the first 5-6 weeks at least every 7-10 days is almost a prerequisite.**

It is true that for each of us the procedure against cellulite and for shaping the character will act individually. The above is my basic recommendation from my practice.

Thai foot massage - "Relax and Medical" massage

... Thai foot massage is an experience procedure with a very, very significant medicalh effect. It is very close to the Reflex lymphatic foot massage and complements Reflexology foot and musculoskeletal system.

In the Eastern world they are used to prevent ill ... and not to treat the consequences of disease. This is certainly the above three methods and techniques ideal.

Thai foot massage is performed with a wooden peg or palms. Our feet have their reflex points and zones. By pressing reflexology and massage the feet of the tibial component, including fingers, tarsus and the entire lower leg. Stimulating the reflex points and zones operate on our internal organs, relieve stress and influence the flow of energy through the body. If you are interested in maps of reflex points and zones, their images can be found in the description of my Reflexology foot and musculoskeletal system.

Thai foot massage positively affects the lymph and internal organs. Performed with oil or dry. The ideal is to use a wooden peg. The advantage of Thai foot massage is that we do not even have to undress.

It is possible version may Tantra massage (massage the length 90min. and more) with massage sensitive intimate parts of the body: the buttocks and anal area, women have breasts, joni and rosette, men also lingam and prostate.

Not only out of but of course, even without sexual intercourse. Tantra works with our sexual energy, but Tantra or Tantra massage does not match the content of tantric sex, mostly carried out between partners.

Sexual energy is our primary energy that is transferred throughout the body and transformed the life energy that we need. Tantric full body energetic orgasm is a suitable addition Tantra massage, if the client or the client wants to know and understand more but without their involvement and cooperation can not.

Full body orgasm, ie energy orgasm expects from you as a client relaxed energy pathways (ie. Meridians) and energy centers (ie. Chakras). Free flow of our sexual energy is a precondition for the experience of a whole-body energy orgasm. Releasing the meridians and chakras I perform energy therapies **Clean energy, and harmonize the chakras and meridians.**
